Patrol Torpedo Boats Defend Panama Canal

Rattle-Dazzle Units Of The Navy's At- tacking Force

By CHANDLER DIEHL

At Sea Off Panama, April 1.—One of the mightiest forces serving in the joint air, sea and land defense of the Panama Canal is the fleet of patrol torpedo boats—now operating in the waters off Panama.

These pint-sized battle-juggies are the rattle-dazzle units of the navy's attacking force, and they have true high-scoring power as proved by the results turned in by the task group operating with General MacArthur in the Philippines.

The mosquito fleet of the Panama sea frontier now is on daily battle maneuvers, and they have been just permitted to see the performance of these mighty mites in tropical waters.

There's no question about rattle-dazzle performance. The PT boats have speed, drive, swing, change of pace, power and deception. They zigzag deceptively, then drive in hard on their target.

One target for a simulated attack in the days maneuvers was a coastwise freighter.

Fear No Enemy

Foam flying, the vessels of the mosquito fleet converged on the target ship. It was easy to picture how these shifty little runners maintain the attacking edge in any combat. They can fend more cunningly than any other type of vessel, and their speed in-line thrusts them to target—lose their torpedoes.

Host man is Lieut. Commander Earl S. Caldwell of Washington, D. C., only 28 years old, but a veteran of service aboard aircraft carrier, battleship, heavy cruiser and destroyer.

He is one of the PT boat service, junior officers of the mosquito fleet, commanding the individual boats, and then speed in-line thrusts them to target—lose their torpedoes.

Crews are picked men—chosen from waiting list according to bureau of navigation tests. They're young in years but are experienced.

Two Farmers Slain
By Ruthless Killer
Near Pontiac, Mich.

Pontiac, Mich., April 1.—(AP)—Two elderly farmers, neighbors near the town of Oxford, north of here, were slain by a ruthless killer in their homes last night—one while he was alone and the other in the company of his aged mother-in-law.

The victims, each shot through the heart, were Charles E. Barber, 71, and Romaine C. Potter, 75, who dwelled two doors apart on Cochrane road two miles west of Oxford.

Barber, Spencer O. Howarth of Oakland county said today a young man who once worked as a hired hand for Barber was being sought.

A grudge may have motivated the shootings, he said.

Adding to the mystery today was the disappearance of Roy Thompson, a neighbor of the slain men. Sheriff Howarth said he feared Thompson was missing last night and failed to report for work this morning at his factory job, might have been the killer's third victim.

This was the story, as the sheriff told it.

About 8 p. m. Barber opened his door to a visitor and was in the dead His mother-in-law, Mrs. Elizabeth Murphy, 91, was helpless. But she believed the killer, she said.

The killer went down the road, entered Potter's home, and shot him. Potter was alone.

"Both men were apparently killed with the same gun—a .22 rifle," Sheriff Howarth said. "We don't know a lot about it yet. Mrs. Murphy can't tell us much."

Forewell Party For State Employee At Watseka

Watseska, April 1.—(RN Special)—Laurence Collins entertained the office force of the state highway department at a dinner Saturday night at his home in honor of Sanford Davis who has been assistant to Mr. Collins the past seven years. Mr. Davis joined the army Monday.

Notes

Mrs. J. E. Ulrich and daughter Dorothy attended a shower in honor of Miss Marcelle Hagd at the home of Mrs. Franklin Hagd in Chicago on Sunday. Miss Hagd is to be married to James Downs of Kankakee in April.

Mrs. John Martin entertained the Monday Sewing club this week. William Lemaire of Chicago was a guest Sunday of Mr. and Mrs. L. M. Martin.

Mrs. Gaylord Hensing and Mrs. Edward Harrison left on the Dixie Flyer Saturday for ten days visit at St. Petersburg, Fla.

Francis Nightingale is expected home this week on a week's furlough from Camp Forrest.

Miss Florence Wilkey, nurse at the Municipal Contagious hospital in Chicago, spent the week-end with her mother, Mrs. Walter, for Chicago.

Mrs. Chester Langheiser underwent an emergency operation for appendicitis at Truett hospital Sunday night.

Mr. and Mrs. Julius Sapero have returned from St. Petersburg, Fla. Two of the group who left Watseka on Monday morning, Mr. Sapero, is expected to be inducted into the army were deferred on account of disability. They were Sanny Wise and Phineas Peacock of Watseka.

Dr. and Mrs. C. H. Dowsett, who left last Friday for Florida, were in an auto accident near Gadsden, Ala. Mrs. Dowsett is in the hospital at Gadsden suffering from a broken heel, cuts and bruises. Dr. Dowsett was badly shaken and bruised.

Two marriage licenses have been issued to Kenneth E. Perkins, 20, and Ruth Baker, 21, both of Chicago, and Debra and John J. McNease, 19, both of Buckley.

ringworm fungus infection and 90 per cent of the severity is due not to the fungus, but to the activity of the fungus, is generally accepted as fact.

The condition of the skin—the most, warm, soft—is ideal fungus growth. In treatment, all these factors must be taken into account, but with special emphasis on the condition of the skin of the hands, the fingers, splintering and scurfiness of the fingernails and toenails may be due to this cause.

C. W.—People carry for years, practically for life, red itchy skin of the arm pits, and besides, there is the circular, sharply demarcated eruption in the groin known as dhotie itch, both forms of ringworm.

Even the books on dermatology do not emphasize that the itching of the ear canal which is so annoying to a great many people, is in 95 per cent of cases due to this form of infection, and that post of itching around the skin of the rectum, the disease known as pruritus ani, is of the same class.

"Ringworm" scientifically is a vegetable mite called the hyphomycetes or trichophyton. When scraped off the skin and seen under the microscope, this fungus looks like a network of the threads of spider glass. There are literally hundreds of varieties of this trichophyton.

Many Species

I have been shown a book by a dermatologist which describes over 800 species. They are all of the same family, but have different chemical reactions, which makes for such a variety of manifestations on that skin and also difficulty in treatment, because of the variety of chemical reactions, an antiseptic which will destroy one kind has no effect on another.

Most cases of chronically itching ear canals due to ringworm infection can be cured by the application of nearly any solution that has alcohol in it. My dermatologist tells me that this has to be applied by myself one dose—that I cannot do it myself even though I am a doctor, because whoever does it has to see the patches of skin involvement and make the application directly to them.

Pruritus ani is in all cases complicated and due to a number of causes such as overweight, high starch diet, fissures, hemorrhoids and psychological factors—tension influences. Germans May Use Poison Gas In Final Effort

British Military Circles
Prepared For
Such Emergency

By EDWARD W. BATH

London, Press Staff Correspondent

April 1.—(UP)—British military circles are prepared for the possibility of a gas attack by the Germans in their final effort to capture the Channel coast.

British military leaders have not ruled out the possibility that the Germans may use gas in their final effort to capture the Channel coast.

Name 8 Men In Charge Of Reemployment

Plan To Provide Work
For All Persons Now
On Relief Rolls

Seven Kankakeans and one Chicagoan with local connections today were appointed members of the Kankakee County Reemployment Committee by the Illinois Public Aid Commission.

The committee is to have the following major objectives:

- Development and creation of work opportunities for the employment of relief recipients.
- Establishing the support of industries and business leaders in making available a certain portion of their job opportunities to those on relief.
- Encouragement of employment policies designed to eliminate discrimination against persons because of age, sex, color or citizenship.
- To act as a clearing house for the requests of workers, requesting work opportunities for these companies and the public employment service on the basis of relief status.
- Stipulation of the transfer of available workers to localities in which jobs are available.
- Survey of needs for training programs for persons on relief rolls.
- Recommendation of means for raising the morale of relief workers and developing a sense of personal responsibility and self support.

The members of the county committee are:

Chairman at Head
P. C. Crocker, Chicago, secretary of the Board of Trade and the Kankakee County Reemployment Committee.

Members:
W. A. Krause, New York City, railroad agent, chairman of the industrial committee, member of the county reemployment board and defense committee.
G. T. Swain, advisor of the Kankakee County Farm Bureau.

"The attack to clear the road block at Shweidung, which was to relieve this detachment, did not materialize," the war report said. "The force to the south, consisting of units of Gloucesters, West Yorks, Cameronians and Buffs, Wellingtons assisted by two Indian frontier police battalions from the north, opened the road late on March 30 after hard fighting under intense enemy air action throughout the day.

"The enemy suffered heavy losses during the engagement and our casualties were moderate.

"The situation on March 31 is that our troops are now back in their original defended areas.

"The enemy is now force holding Shweidung, and on the western bank of the Irrawaddy, while other columns are operating to the east, astride the railway north of Paungmye, still having complete control of the area.

Argentina Shut Off From Aid By The U. S.

Until Such Time As She Takes Her Place Against The Axis Nations

By JACK BEARDWOOD
Washington, April 1.—(AP)—The United States has shut Argentina off from the special economic, military and political aid which Latin American countries, until such time as she takes her place in the hemisphere front against the Axis.

The decision, an authoritative source disclosed yesterday, was in line with a new policy of giving preferential treatment to American republics which have gone to war or severed relations with the Axis.

The nine nations that have declared war and the nine nations that have cut relations have exposed themselves to Axis attack, the authority explained, hence, he added, they must have all the economic aid, military and naval materiel the United States can safely provide them.

Because of the situation, nothing remains for the other Latin American countries.

Friendly With Enemies

At the present time, the official said, Argentina still maintains relations with the Axis and is failing to contribute in any effective way to the defense or security of the western hemisphere.

Until and unless Argentina pulls her share of the hemispheric defense load, it will be impossible to send military or naval supplies to the Buenos Aires government.

Chile, the only other Latin American nation that has not yet broken with the Axis, will get modified treatment in regard to military and naval supplies, it was stated. This is because of Chile's long coastline and because her navy is smaller than that of Argentina.
